**PARAGON TECHNOLOGIES' SI SYSTEMS
BRAND AWARDED A \$1.1 MILLION CONTRACT FOR AN AUTOMATED
ASSEMBLY CONVEYOR SYSTEM**

EASTON, PA — December 18, 2007 -- Paragon Technologies, Inc. (AMEX:PTG), a leading supplier of “smart” material handling systems and “software-driven” warehouse and distribution center solutions, announced today that its SI Systems brand received an order from Fives Cinetic Automation totaling \$1.1 million to design, build, and install an automated conveyor system. This order calls for two separate conveyor systems, one of which will be used to assemble a variety of fuel-efficient gasoline engines, and the other conveyor system will be used for a new model diesel engine. The conveyor systems are part of an engine manufacturer’s major automation project at a New York facility. Fives Cinetic Automation is part of Fives Group, Inc., a worldwide leader in designing and supplying production lines and process equipment for major industrial companies. On this project, SI Systems will be a major subcontractor for Fives Cinetic Automation on a multi-million dollar, large-scale manufacturing automation project.

Len Yurkovic, Acting CEO of Paragon Technologies, said, “We are delighted at being selected by Fives Cinetic Automation and being recognized as a leading supplier of assembly conveyor technologies. As the automotive industry at large continues to develop new fuel-efficient engine technologies, we have been very successful in working with manufacturers of all types of engines to utilize our ergonomically designed towline conveyor in their assembly process.”
